CITY OF COLLEGE PARK

P. O. BOX 87137 - COLLEGE PARK, GA. 30337 - 404/767-1537

September 14, 1998

Chief of the Allocations Branch
Mass Media Bureau
Federal Communications Commission
2000 M Street, N.W.
Washington, D.C. 20554

Dear Allocations Branch Chief:

As Mayor of the City of College Park, I believe our city needs to have its own local radio station. A College Park radio station would bring valuable recognition to city events. Local radio broadcasts would also highlight a more progressive image of College Park's future development than currently found in the metro Atlanta media.

I perceive College Park as independent from Atlanta because College Park provides the full panoply of services to its citizens:

- ◆ Electricity
- ◆ Engineering – Planning, Zoning, Building Inspection, Code Enforcement
- ◆ Public Works – Sanitation, Water, Sewer, Streets, Animal Control, Parks & Grounds
- ◆ Public Safety – Police, Fire, EMS
- ◆ Recreation – Athletic, Youth, Community and Senior Programs
- ◆ Business Licensing, Utilities Customer Service
- ◆ Schools

College Park also has more than enough businesses inside the city to meet the consumer and service needs of its citizens. And, with 27 hotels operating in College Park, residents have substantial opportunity for employment within city limits. Many hospitality and restaurant workers walk from their homes in College Park to their jobs.

Sincerely,

Jack P. Longino
Mayor, City of College Park

COLLEGE PARK HISTORICAL SOCIETY, INC.

COLLEGE PARK, GEORGIA 30337
1991 Centennial Year

September 14, 1998

Chief of the Allocations Branch
Mass Media Bureau
Federal Communications Commission
2000 M Street, N.W.
Washington, D.C. 20554

Dear Allocations Branch Chief:

I am president of the College Park Historical Society and I believe that College Park needs a local radio station. We used to have a radio station back in the 1950s. The call letters were WCPK and the studio was located at 3755 1/2 Main Street.

College Park residents have a strong sense of community. We believe we belong to a city that has a unique identity. We take pride in celebrating our distinct community heritage. We support a variety of civic and neighborhood organizations and we enjoy a wide range of activities and events promoted by these groups:

- ◆ College Park Historical Society Archives and Landmarks Preservation
- ◆ Historic College Park Neighborhood Association Holiday Tour of Homes
- ◆ Historic College Park Neighborhood Association Block Party
- ◆ College Park Women's Club Fall Fair
- ◆ College Park Women's Club Community Thanksgiving

I perceive College Park as independent from Atlanta because College Park provides residents with the full panoply of services. My distinct impression is that College Park residents do not rely on Atlanta for services, goods or employment. College Park citizens have their consumer needs met by businesses in College Park and can find substantial opportunity for employment within city limits.

As a resident of College Park, I attend First United Methodist Church with my family. I feel certain the College Park community would listen to a local radio station that agreed to broadcast a format preferred by city residents

Sincerely,

Betty Croley

Washington, D.C. 20554

Dear Allocations Branch Chief:

As Branch Manager of NationsBank College Park I believe College Park needs a local radio station. The branch serves College Park citizens as a financial and lending institution. A NationsBank Operations Center, Processing Center and Old National Highway Branch are located in unincorporated Fulton County just outside the city limits.

NationsBank College Park currently employs College Park residents and advertises job opportunities, products and services in local newspapers (South Fulton Neighbor, Clayton News/Daily and other publications). My distinct impression is that College Park residents do not rely on Atlanta for services, goods or employment. College Park citizens have their consumer needs met by businesses in College Park and can find substantial opportunity for employment within city limits.

I also perceive College Park as independent from Atlanta because College Park provides my business with the services it needs:

- ◆ Electricity
- ◆ Engineering – Planning, Zoning, Building Inspection, Code Enforcement
- ◆ Public Works – Sanitation, Water, Sewer, Streets, Animal Control, Parks & Grounds
- ◆ Public Safety – Police, Fire, EMS

Both College Park and the NationsBank College Park Branch would benefit from local radio broadcasts and I look forward to College Park getting a radio station soon.

Sincerely,

Marsha Goodman
Branch Manager, NationsBank College Park

Georgia International Convention Center

COLLEGE PARK

September 14, 1998

Chief of the Allocations Branch
Mass Media Bureau
Federal Communications Commission
2000 M Street, N.W.
Washington, D.C. 20554

Dear Allocations Branch Chief:

College Park owns and operates the Georgia International Convention Center (GICC), the second largest conference and meeting facility in the state of Georgia totaling 349,000 square feet of exhibition space. As executive director of the center, I fully support installation of a local radio station in College Park. A College Park radio station would bring valuable recognition to locally sponsored events held at the center.

With 39 full time positions, the GICC currently employs College Park residents and advertises job opportunities in the local newspapers (South Fulton Neighbor, Clayton News/Daily and other publications). Promotions for conference services and specific events appear on out-door advertising (billboards) around the GICC site.

My distinct impression is that College Park residents do not rely on Atlanta for services, goods or employment. College Park citizens have their consumer needs met by businesses operating in College Park and can find substantial opportunity for employment within city limits.

I also perceive College Park as independent from Atlanta because College Park provides the GICC with the services it needs:

- ◆ Electricity
- ◆ Engineering – Planning, Zoning, Building Inspection, Code Enforcement
- ◆ Public Works – Sanitation, Water, Sewer, Streets, Animal Control, Parks & Grounds
- ◆ Public Safety – Police, Fire, EMS

Both College Park and the GICC would benefit from local radio broadcasts and I look forward to College Park getting a radio station soon.

Sincerely,

A handwritten signature in cursive script that reads 'Lynda Browning'.

Dear Allocations Branch Chief:

As General Manager of the Sheraton Gateway Hotel, I support the installation of a local radio station in College Park. The hotel serves College Park citizens as a fine dining and entertainment venue and I would consider advertising on a local radio station to position the hotel more solidly in the local market.

Sheraton Gateway Hotel currently employs College Park residents and advertises job opportunities in local newspapers (South Fulton Neighbor, Clayton News/Daily and other publications). My distinct impression is that College Park residents do not rely on Atlanta for services, goods or employment. College Park citizens have their consumer needs met by businesses in College Park and can find substantial opportunity for employment within city limits.

I also perceive College Park as independent from Atlanta because College Park provides my business with the services it needs:

- ◆ Electricity
- ◆ Engineering – Planning, Zoning and Building Inspection
- ◆ Public Works – Sanitation, Water, Sewer, Streets, Parks and Grounds
- ◆ Public Safety – Police, Fire and EMS

Both College Park and the Sheraton Gateway Hotel would benefit from local radio broadcasts and I look forward to College Park getting a radio station soon.

Sincerely,

Michelle Hayes
